DECLARATION

We, **[Students Name1, University Roll No.; Students Name2, University Roll No.;]** hereby declare that the work which is being presented in the project report titled “**[Project Title]**” is the record of authentic work carried out by us during the period from [month to month year] and submitted by us in partial fulfillment for the award of the degree of Bachelor of Technology in [Branch] to Babu Banarasi Das University, Lucknow U.P. (INDIA). This work has not been submitted to any other university or institute for the award of any degree / diploma.

Name 1(University Roll Number)

Name 2(University Roll Number)....

ACKNOWLEDGEMENT

We would like to thanks to our Project Guide, “.....”, Designation, Department of Computer Science & Engineering, for his exemplary guidance, monitoring and constant encouragement throughout the course at crucial junctures and for showing us the right way.

My special thanks to **Prof. (Dr.) Harsh Dev**, Professor & Head, Department of Computer Science & Engineering (CSE), for allowing us to use the facilities available. We would like to thank other faculty members also.

Last but not the least, we would like to thank our friends and family for the support and encouragement they have given us during the course of our work.

ABSTRACT

In abstract write up to (150–250 words) including the Brief introduction of the problem, Objective of the work, Methodology used, and findings/results as well.

LIST OF ABBREVIATIONS

ML	Machine Learning
AI	Artificial Intelligence
ANN	Artificial Neural Networks

Chapter 1: Introduction

Include:

- Background of Study
- Problem Statement
- Motivation
- Scope of the Project
- Organization of Report

Chapter 2: Literature Review/Requirements Analysis and Requirements Specifications

- Summary of existing work
- Research gaps
- Comparative analysis (if applicable)
- Functional requirements
- Non Functional requirements
- Hardware and Software requirements

Chapter 3: Methodology / System Design

Include:

- Block diagram / System architecture
- Flow charts
- Algorithms used
- Dataset details (if applicable)

Chapter 4: Implementation and Testing

Include:

- Step-by-step implementation process
- Software / Hardware testing process
- Modules description
- Screenshots (if software project)
- Hardware setup images (if hardware project)

Chapter 5: Results and Discussion

Include:

- Output results
- Graphs / charts / evaluations
- Comparative analysis
- Interpretation of results

Chapter 6: Conclusion & Future Scope

Include:

- Summary of the project
- Key findings
- Limitations
- Future enhancement ideas
